

Part of the Seychelles archipelago, North Island floats on the azure clear waters of the Indian Ocean. With just 11 villas, each handcrafted in the distinct style of the Seychelles – the experience is a notch above luxurious and a step beyond exclusive.

With dappled forest trails, sea kayaking, fishing or boating plus endless opportunities to snorkel, dive or submerge yourself in barefoot tranquility, North Island blends natural beauty with sheer luxury.

However, similar to Song Saa, North Island is more than a tropical island retreat: fauna and flora endemic to the Seychelles flourish and turtles and Seychelles birds nest and live here once more. ■

North Island, Seychelles

Private island hideaways

Song Saa, Cambodia

In Cambodia's untouched Koh Rong Archipelago, two pristine islands lie side by side. They are known locally as Song Saa - Khmer for 'The Sweethearts'.

The Song Saa Private Island is as seductive as the name implies. Both intimate and luxurious, but above all in harmony with all the elements of nature that make this hideaway so special.

Opening in November 2011, the Song Saa Private Island will feature 25 luxury overwater, rainforest and beach villas built with sustainable materials and with the deepest respect for the natural environment. At the resort's heart is a world-class restaurant and lounge, spectacularly positioned just off the island's shoreline and surrounded by sea.

Guests can explore the islands' reefs, wander among virgin rainforest and lie on the pure white sands of Song Saa's beaches. ■
